

EDGE ◀ The signature case

EDGE◀

EDGE◀ The signature case

The EDGE is the most exclusive custom made case on the market. With his graceful curved aluminium profile the case is elegant and stylish.

The carefully selected colors in which the aluminium profile can be anodized or powder coated make it unique. Various panel options makes it a pleasure to the eye.

This combination ensures that your case is unique and corresponds to your brand identity.

What is your signature?

Quooker ▶

Black powder coated aluminium profiles with extra matt black panels and screen printed logo on the lid. On the inside a milled and laser engraved foam interior in the base and an auto-play video module in the lid for a powerful presentation.

◀ Inspiration

Gold Essence ▶

Gold anodized aluminium profiles with an exclusive gold coloured panel with screen printed logo on the lid. On the inside a foam interior covered with fabric for a luxurious touch. The lid is detachable for a perfect presentation of the products.

◀ Inspiration

Rods & Cones ▶

Silver anodized aluminium profiles with white extra matte panels and a screen printed logo on the lid. A milled foam interior in the base and a laser engraved logo in the foam in the lid. This EDGE is intentionally designed without a handle and can be carried under the arm or in a backpack.

◀ Inspiration

Signature ▶

The EDGE **Signature collection** has been put together with the greatest care. We teamed up with color and trend experts and we are proud of the unique result.

The panels of the EDGE are covered with a top layer from our Signature Panel Collection or with a uni-colour HPL matching your brand identity.

The bended aluminium profiles of the EDGE are refined by anodising or powder coating in one of the colors from our Signature Aluminium Profiles Collection.

Be inspired by the possibilities and combinations. What suits your brand? What is your signature?

◀ Collection

Signature Panels

The Signature Panel Collection is a reflection of the latest trends. This allows you to design EDGE cases according to today's looks and feel. From the extremely opaque and anti-fingerprint FENIX finish, to leather, wood and marble look HPL (High Pressure Laminate) finish.

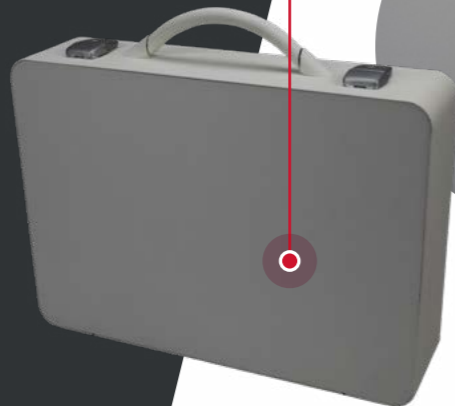

Be inspired.

FENIX panels

The FENIX finish combines anti-fingerprint with a soft touch and extremely opaque surface. You cannot resist the temptation to touch this finish. But it's more than just ultra matte and fingerprint resistant. Thermal healing of superficial micro-scratches is also possible.

Clean and modern.

*This example is finished
in the color #2139*

FENIX®

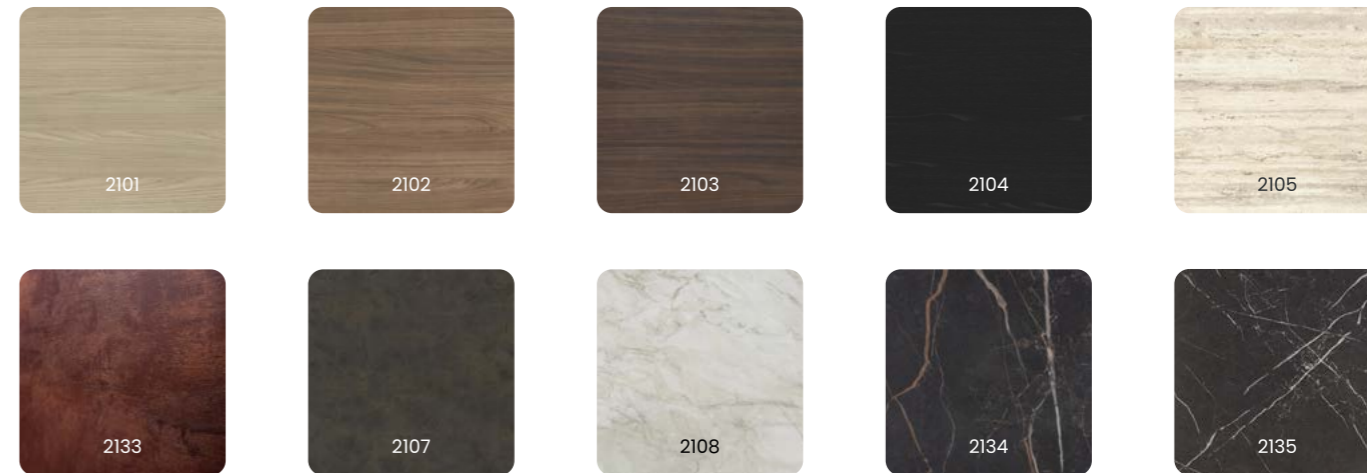

Nature panels

The Nature Panel Collection is a combination of wood, stone and marble look HPLs. From light-colored wood to various marbles with colored veins.

Tough and daring.

This example is finished in the color #2108

The design of these HPLs is in landscape or portrait. This will be processed randomly on the EDGE cases unless otherwise indicated. Specific use in landscape or portrait can lead to more cutting loss and higher costs. The samples included in the EDGE demo case and sample swath can be distorted because they only have a small surface. Larger images or samples can be supplied on request.

Leather panels

The natural look of leather has been translated into decorative HPL. In this collection, the look of leather comes to life in a tactile structure. This is combined with trend colors, inspired by luxury designer bags.

Stylish and elegant.

This example is finished in the color #2114

Signature Profiles

The bended aluminium profiles that form the frame of the EDGE are characteristic. With the Signature Profiles Collection it is possible to emphasize this even more. From neutral silver anodized to the look of corten steel by powder coating the aluminium frame.

Be inspired.

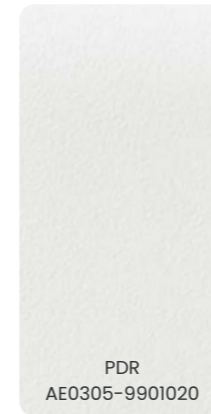

Powder Coated Evergreens

Powder-coated evergreens are selected for timeless design. They are colors that are safe, but definitely to be seen. Now and in the future.

Safe and sound.

Powder Coated Trend Collection

The powder-coated trend colors are carefully chosen based on contemporary trends. Tough and industrial or, on the contrary, subtle and soft.

Challenging and contemporary.

Anodized colors

In the anodized collection, the distinctive pattern of an extruded profile remains visible. The colors are carefully chosen and in doing so, the aluminium retains its appearance.

Authentic and subtle.

Uni colors HPL Panels

In addition to the Signature Panel Collection, it is of course also possible to choose a regular HPL color for the panels. We have depicted these HPLs here. Are you looking for a specific (Pantone or RAL) colour? Let us know your color number and we will be happy to send you samples of the colors closest to this color.

This example is finished in the color #856 Blu Acciaio

Technical specifications

EDGE cases are custom produced for you. Length and width of the case will be determined together with you based on the contents of the case. The inside height of the lid is always 25 mm, that of the base 50, 75 or 100 mm.

Locks and hinges are black or silver, while the handle can be powder coated or anodized in the same color as the aluminium profiles.

Each EDGE can be printed.
